

“FALL” INTO

Leaf Etching

Materials:

- Any Color Crayon
- Leaf from outside
- A Sheet of Paper (Found in Packet)***

Step 1: Go outside and collect a leaf. It can be any kind of leaf that you want. It's even better if you grab a leaf that has already fallen for the season.

Step 2: Remove the paper wrapper off your crayon. You can use a broken one or a new one. It doesn't matter.

Step 3: Place your leaf on a flat surface (table or floor) and then place your blank sheet of paper on top of it. Don't have one? You can find one in your packet!

Step 4: Using the side of your crayon rub it against the paper in the location of the leaf under it.

Step 5: Want more leaves on your paper? Use another or the same color crayon and repeat steps 3 and 4 with the same paper you have.
